Protecting Senior Assets:

5 Signs of Financial Abuse and How to Prevent It

One in 20 seniors experience financial abuse and nearly 50% of it occurs at the hands of relatives and people they trust. It is a growing problem, and is grossly under-reported due to senior dependency on their caregivers. It is important to take steps before a physical or mental crisis arises, to protect yourself or your loved ones. Janis will cover

- **How to recognize financial abuse**
- **Who is most vulnerable**
- **Where to turn for help**
- **What can be done to prevent it**

"I learned others have the same concerns that I do. New information about credit reports and phone safety." —J.N.

"Very informative. I wish I had heard all this years ago when my mother was a victim."

"I learned to be aware of being so friendly, and to be careful who I trust. I liked learning about so many ways of being scammed. The presentation and all information was done very well, thank you." --E.B.

"Great information!"
